Technical Skills

HTML5/CSS3, Javascript, Ruby on Rails, jQuery, AngularJS, Git, Wordpress, Bootstrap, Sass, Ruby, Heroku, Responsive Design, REST API Design, UI/UX design, Firebase, Front-End Development

Projects

- PartySquares** **Informational Product Website** <https://partysquares.com>
-Created, designed, and deployed client website with Wordpress CMS.
-Custom HTML, CSS, and Javascript were written based on the client's requests to improve and handle functionality and appearance of the site on all platforms and browsers.
- Travelog** **Unique Content Sharing Application**
-Developed full-stack with Ruby on Rails and jQuery. Deployed to Heroku.
-Designed responsive and interactive UI using Javascript, AJAX, Bootstrap, and CSS animations.
-Defined relational schemas using PostgreSQL to decrease layered query time.
- Metriks** **Analytics Service for Tacking and Reporting**
-Developed RESTful API to track and record events on registered applications.
-Integrated Chartkick to display charts of tracked events based on time.
-Maintained versioning system using Git.
- Gorilla Music** **Digital Web Music Player**
-Designed and developed with Javascript, jQuery, and AngularJS.
-Created responsive music player controls, allowing pause, play, and volume functionality.
-Added and displayed analytics tracking with D3.js.
- Adroit** **Online Web Store**
-Concept e-commerce application designed and developed for a client using Ruby on Rails.
-Coded custom shopping cart feature with Stripe checkout for payments.
-Implemented responsive design, animations, and styles with CSS, HTML, SASS, and Javascript.
